

For the **Zumtobel Group** in **Dornbirn** we are searching a

Junior Systems Engineer (m/f/x)

CONTACT US

Your Job

In this exciting position you get the chance to develop group-wide standardized electronic systems (hardware/software) within an interdisciplinary team. This involves the selection and approval of modules such as sensors, communication units, and controls.

As a Junior Systems Engineer (m/f/x), you will be responsible for the following:

- Support requirements analysis, specification and conception by considering system interfaces and constraints
- Implementation in cooperation with internal and external development partners
- Securing product quality: Development of test concepts, implementation, execution and documentation of development tests, system and module release
- Provide the technical documentation
- Support product maintenance over the whole product life cycle
- 3rd Level support and participation in complaints processing

Your Profile

Your enthusiasm for technological challenges is driven by a strong willingness to learn and inspires you to continuously expand your expertise. Your curious and open-minded personality distinguishes you, and you actively look forward to taking on responsibilities.

- Your basis is a technical education (HTL, FH, Uni) in the field of Electrical Engineering, Electronics, Computer Science, Information and Computer Engineering or Software Engineering
- Basic knowledge in Requirements Engineering, Systems Engineering (HW/SW) and Product Development (electronic hardware/software)
- First experience in working with Embedded Systems, Communication Technologies, Wireless Standards (Bluetooth, RFID, ZigBee, and WLAN) and the Development of distributed embedded communication systems (preferably IP or wireless)
- You are fluent in English, both written and spoken (German is a plus)
- Experience in the development of series products is advantageous.

You are welcome to apply directly on our homepage, where you can also find further information about our vacancies. [Junior Systems Engineer \(m/f/x\) \(zumtobelgroup.com\)](http://zumtobelgroup.com)
